

**CANADA
PIPELINE
ACCESSORIES**

2" CPA TBR Flow Conditioner

Features & Benefits

- Satisfies AGA 3 requirements for Beta Ratios up to 0.75.
- Only 13D total upstream meter run-length required.
- **EXACTLY** 8 and 5 pipe diameters required (For the 2" TBR only. 2" TBR testing was performed at these lengths.)
- Independently proven and tested.
- Functionally eliminates swirl and asymmetry.
- Minimizes meter uncertainty in any piping configuration.
- Robust construction.
- Simple pin-mounted installation.

CANADA PIPELINE ACCESSORIES

2" CPA TBR Flow Conditioner

Error Due to Swirl & Profile Disturbance with a CPA-TBR Installed 8 Diameters Upstream
